Sustainable Traffic Management of Unmanned Aircraft and Ground Vehicle Systems

Message from the Guest Editor

The contributions welcome topics listed, while, seeing that the sustainable unmanned system traffic management looks for original, disruptive solutions, other interesting and radically new ideas, new fields will be also pleased to accept.

- research and test environment of drones and autonomous transportation,
- development of UAS and drones,
- demand & business modeling,
- safety & security problems
- obstacle / conflict detection and resolution,
- autonomous transportation,
- interactions of various autonomous vehicles,
- formation flight, group control concepts,
- route network design, route planning
- application of special traffic rules,
- artificial intelligence in traffic management,
- general estimation of total life cycle cost,
- total (environmental) impact,
- sustainable system optimisation
- design, manufacture and operational optimization with environmental benefits
Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:**—free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
